COMPANY PROFILE

ABOUT OUR COMPANY

Qineos Software Private Limited is a start-up company registered in Mumbai. We mainly focus on the Android Platform and Web designing concepts. We have successfully started the project in Android app development for Smart City projects in Mangalore. We have specialised technical persons for ERP modules, Network configuration, Digital marketing concepts and other software developments.

CURRENT PROJECT

Temple Software

The Qineos Technical team decided it would be a good idea to launch new temple software, which would allow us to handle not just the accounting and billing but also additional resources and data that are regularly needed by religious trusts and temples.
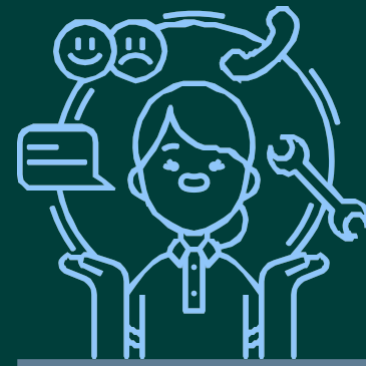

OUR

MISSION

Our Mission

The development of the all-in-one Temple Building and Resources Management Software was overseen carefully by Purohits, temple administrators, and seasoned IT professionals.
We offer individualised, comprehensive, one-step cloud migration solutions to our clients, together with committed customer support and training.
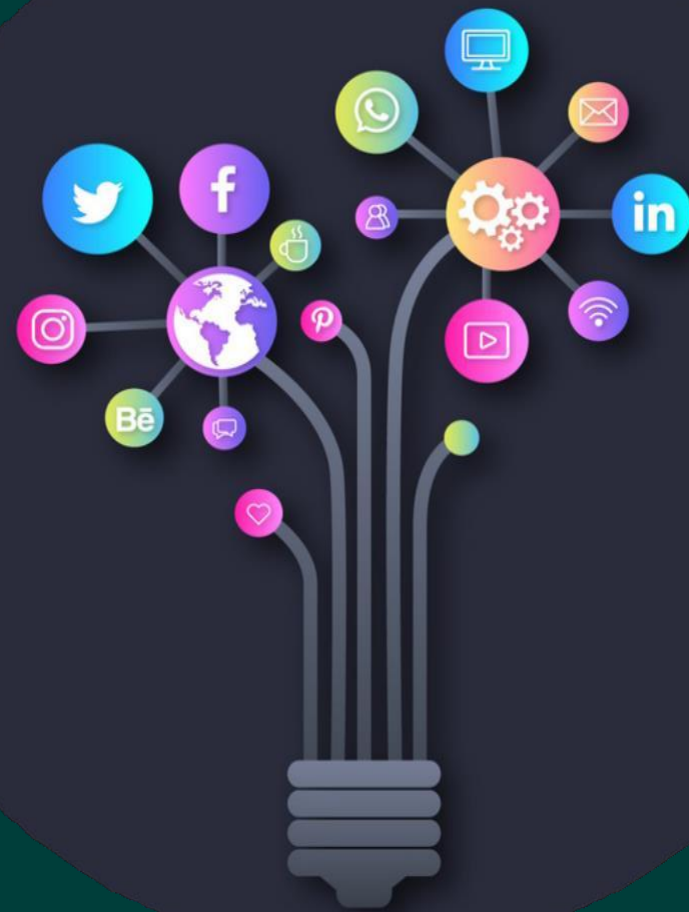

OUR SERVICES

Mobile Application

- Mobile Application Development refers to the processes and procedures involved in building software for small, wireless computing devices such as smartphones and other mobile devices.

- The project we have chosen for execution is the Central Government of India's Smart City Project. We are now implementing "SMART GARBAGE MANAGEMENT" in Mangalore, and we have a core staff dedicated to this project.

- We will also develop a birthday reminder app and plan to collaborate with Central Government Projects and foreign projects to meet their day-to-day needs via an Android application.
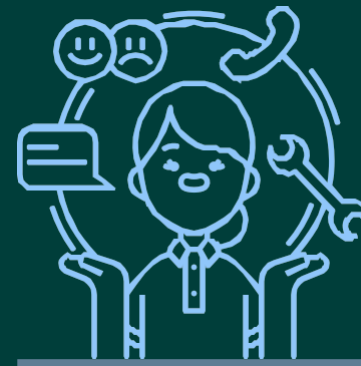

DIGITAL MARKETING

- Digital marketing is the use of the internet and online-based digital technology, such as desktop computers, mobile phones, and other digital media and platforms.

- We use four sorts of digital marketing tools: Content Marketing, Search Engine Optimisation, Search Engine Marketing, and Social Media Marketing.

- In the following days, we will form partnerships with jewellery, supermarkets, schools, and media to market their products online utilising Digital Marketing concepts.
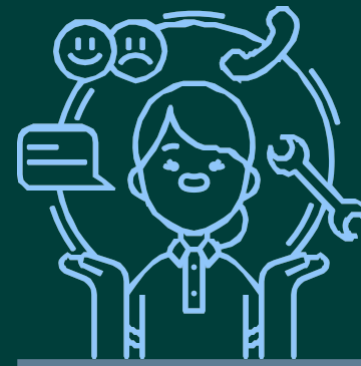

Web Development

- Web development, often known as website development, refers to the tasks involved in establishing, managing, and maintaining websites and web applications that run in a browser. It also includes web design, web programming, and database management.

- We have taken on the building of websites for Udupi and Dakshina Kannada's major temples and educational institutions, as well as projects in Andra tourist and transportation vendors' key team members.

- We plan to reach more than 500 customers in the coming years, and we need to focus on the Real Estate, Government Sector, FMCG, and Hotel industries to fully digitalize their platforms.
